

Handling Work-Related Injuries

All student hourly employees (both part-time and Work-Study) whether working on or off-campus sites are considered to be University of Iowa employees and, as such, are covered under the [University's Worker's Compensation Policy](#). When faced with a workers' compensation situation, the most important thing to know is where the employee must seek treatment in order to receive coverage. For all work injuries/accidents, employees must receive medical care from the following treatment location:

- UI HealthWorks (3 Lions Drive in North Liberty - off HWY 965), M-F 8:00 a.m. to 5:00 p.m. (319) 665-2111, [Directions/Map](#)

Employees in the Iowa City area should use The University of Iowa Hospital and Clinics Emergency Room for emergencies and/or treatment during non-clinic hours.

Do not go to Student Health – you will be charged for treatment.
