Meeting called to order

Updates

This was the first meeting of the new Staff Council year. The new Executive Committee was introduced.

The Legislature still has to approve the Performance Based Funding model before it can move forward. At the university, graduate and professional students make up 1/3 of the student body, with 2/3 of those students being Iowa residents. If the new model structure is approved in the Legislature, there will be an increase in recruitment of undergraduate Iowa resident students, which could negatively impact community colleges. Another dormitory for students is being considered on campus, as well as more family housing like Hawkeye Court.

The impact on UI with the 2nd Phase of the Deloitte Efficiency Study underway is yet to be seen. There are no specific updates at this time.

Summer enrollment on campus is up over previous years. There are 280 Summer Hawk students enrolled this summer.

Everything is on schedule for the building of the new pharmacy building. Most of the projects on campus are FEMA/flood mitigation related.

There were approximately 100 retirees in attendance at the Staff Retirement event.

There is a town hall meeting with Deloitte on Wednesday this week. Deloitte will be meeting with purchasing and other groups on campus in the coming weeks.

The annual Staff Council Reception at the President’s Residence is scheduled for Thursday evening.

Meeting adjourned
