

Courses in Common At Iowa

LIBERAL ARTS AND SCIENCES

What is Courses in Common?

Courses in Common (CIC) is a way to take two or three classes together with a small group of other first year University of Iowa students (18-28 students, depending on the CIC Option).

Do a lot of people do it?

Nearly 15,000 students have participated in CIC since it started in 1991.

What are the advantages and disadvantages?

Approximately 95% of those who have provided feedback on their CIC experience have told us that they would recommend CIC to other first year students. Among their reasons:

- CIC is a good way to meet people
- CIC helped them feel more comfortable at the University
- CIC made it easier to participate in class discussions

- CIC makes building a first semester class schedule much easier.
- They studied together and met socially with their CIC classmates
- CIC was one of the most positive experiences of their first semester at The University of Iowa.

The small number of students who haven't liked CIC say that they didn't connect with their CIC classmates, met fewer people, or prefer more anonymity.

Can I change my mind?

Yes. First, contact your academic advisor. During the summer, you may be required to drop all of the CIC sections or courses and add different ones, so that another student can take your place in CIC. Once classes begin, your participation in CIC doesn't impact your ability to drop and add classes.

How do I choose a CIC Option?

Start with the CIC Options that include a course you're already planning to take:

- Rhetoric I: Options 6-15 and 33
- Accelerated Rhetoric: Options 16-30, 38 and 42
- The College Transition: Options 1-5 and 32
- General Chemistry or Principles of Chemistry: Options 32-44
- Honors courses: Options 29-31 & 42-44

Some Options are intended for particular majors:

- Nursing/Nursing Interest: Options 45-52
- Engineering: Options 53-61

To learn more about CIC, ask your academic advisor or visit the Courses in Common website using the A-Z search at <http://www.uiowa.edu/>
