Silver Medal for Biology/Medicine 2009

Dear Garry,

On behalf of the IES Executive and membership of the International EPR Society (IES), I would like to congratulate you on being chosen to receive the International EPR Society's Silver Medal for Biology and Medicine 2009. The award committee especially noted your fundamental contributions that have advanced the use of EPR spin trapping in biology and medicine.

Previous Recipients of the Silver Medal for Biology & Medicine are listed below:

1994	Hal Swartz	1995	Lev Blumenfeld
1996	Ron Mason	1997	Anatole Vanin
1998	Edward Janzen	1999	Jack Peisach
2000	Lawrence J Berliner	2001	Balaraman Kalyanaraman
2002	Ohara Augusto	2003	Michael Davies
2006	Periannan Kuppusamy & Jay Zweier		

The medal and certificate are usually presented at a major ESR conference where the recipient is speaking, since the IES does not have its own conference. This year, the IES is planning to have its Annual General Meeting during the Annual Rocky Mountain EPR Symposium in Snowgrass, Colorado (19-23 July), and we expect to be able to arrange for an invited lecture. However, feel free to inform us of another major ESR meeting that you might prefer, (such as the International Meeting of the ESR Group of the Royal Society of Chemistry in Norwich, England (19-23 April) or the European Federation of EPR Groups Meeting in Antwerp, Belgium (6-11 September)) and we will arrange for a member of the Executive of the IES to present the medal and certificate before your talk. If needed, we can sometimes arrange for you to talk at one of these other meetings. Please contact me at your earliest convenience to let me know where you would be able to receive the medal.

Congratulations and Best Wishes,

Jack H. Freed
President
