

## The faces of North

*The Oracle* wants to tell the stories behind the different faces at North. Find someone to interview about a job, hobby, activities, awards, events, family etc. Make sure you focus in on one thing that makes the person unique.

Take home test worth 100 points. This student has an assignment to interview someone interesting for an *Oracle* student newspaper story. 400 word minimum. Handwritten or typed story DUE THURS. at the beginning of 6<sup>th</sup> BLOCK.

If you are a polar time teacher, could this student choose one member to interview during your polar time on Tuesday and Thursday? It takes about 40 minutes to conduct a quality interview. If you are a classroom teacher, could this student take 5 min. to set up an interview time and get a phone number from another student? Or start conducting some of the interview during class if you have any time to spare?

Thanks, Lisa Kritchman
