All students who own or operate any motor vehicle on the University of Iowa campus, except those already displaying faculty/staff parking permits, **must** register their vehicle within 48 hours of their initial operation of the vehicle on the University of Iowa campus. Students who own or operate any motor vehicle are not exempt from this registration for any reason, including place of residence, class in school, class load, or outside work. Students are held responsible for the official registration of the vehicle and knowledge of all associated regulations. Such registration is complete only with the proper display of the decal. Proper display of the decal on the registered vehicle provides a discounted rate for select parking violations. Students cannot apply for or receive a permit for any vehicle owned or operated by another student. Your parking eligibility is based on your residing address during the school year. If you want a Hancher, Finkbine, or Hawkeye commuter parking assignment, you have the option of making a first, second, and third choice. Please select only the lots you will accept. If you desire parking in only one of the lots, make that your choice. Due to limited parking available on campus, we cannot guarantee that all students desiring assigned parking in a commuter lot will receive their first choice. If your first choice is not available, you will be issued your second or third choice. Your name will be automatically placed on a waiting list for any commuter lot you selected and could not be assigned. You will be contacted if cancellations make it possible to issue more permits.

We recommend that students living in the Iowa City/Coralville area consider transportation alternatives such as [bicycling](#), [carpooling](#), the [city transit systems](#), and [Cambus](#). Iowa City/Coralville Transit student bus passes are available for a reduced student rate.
